National Park Service
2004-2005
- Operated United States NPS ranger stations

ABOUT ME

I aspire to enrich the world through commitment to exploration, integrity, and seeking Alexandrian solutions to Gordian knots. I am a web developer with a background in project management, earth science, and music, yet I am ultimately a ravenous student of life. I have been recognized throughout my career for the high level of focus and detail I bring to projects, and for my ability to build powerful, enduring relationships with clients and colleagues.

RECENT PROJECTS

Sugar Skull - Official
Homepage for Austin, TX band Sugar Skull
